TAMPERE UNIVERSITY OF TECHNOLOGY  
Department of Chemistry and Bioengineering

# Course certification

**Anastasya Sidorova**

has successfully completed the internet course

**Safe and Sustainable Sanitation  
2010**

offered 30.8.– 24.10.2010 by

**Tampere University of Technology**

with the grade

**good (3).**

The internet course is worth of  
3 ECTS credits\*.

---

Professor Tuula Tuhkanen  
Tampere 5.11.2010

\* One ECTS credit is equal to 27 hours of effective work

# *Certificate*

*Anastasiya Sidorova*

has participated and successfully contributed in the

*International Teachers Conference 17-21 May 2011*

## *Environmental Management Systems and Corporate Social Responsibility*

The conference was carried out in Rogów, Poland and arranged in cooperation between the Baltic University Programme at Uppsala University, Sweden and Lodz Technical University, Poland, and the Eco-region Project of Baltic21. It included participants from universities in Finland, Sweden, Poland, Belarus, Ukraine, Russia, Estonia, Latvia, Lithuania, and Germany.

The conference consisted of lectures, participants' presentations, discussions and study visits. It gave an overview of Environmental Management Systems and Corporate Social Responsibility as a systematic approach to improved environmental performance and social responsibility in industries, universities and municipalities. It included materials management, life cycle assessment, cleaner technology, environmental law, and certification.

Participants participated in workshops, discussions, and presentations on different themes and had the possibility to update their knowledge and broaden their views. The conference also treated teaching materials available and discussed how the subjects covered are taught at the different universities and implemented in the countries to improve sustainable development in the Baltic Sea region.

Rogów, Poland, 20 May 2011

Lars Rydén  
Professor, Director emeritus  
Uppsala University

Ireneusz Zbicinski  
Professor, Vice-Rector  
Lodz Technical University

## **CERTIFICATE**

This is to confirm that

***Anastasiia Sidorova***

has actively participated in the international Nordic and the Baltic University Programme (BUP) seminar  
on Sustainability

***Competences for Learning and Education for Sustainability (ESD)  
in Higher Education***

held in Turku /Åbo, Finland, November 5-6 2013

The seminar was organized by the Centre for Lifelong Learning at Åbo Akademi University, acting as the Finnish national BUP-centre.

The programme focused on interdisciplinary competences and networking in higher education, supporting the implementing of sustainable development, and consisted of keynote lectures and workshops.

The seminar included participants from Finland, Sweden, Norway, Denmark, Germany, Poland, Slovak Republic, Czech Republic, Ukraine, Belarus, Russia, Lithuania, Latvia and Estonia.

The seminar was also the final summit of the project "Development of the Nordic Higher Education Networks for Sustainable Development and Green Campus" (2012-2013), coordinated by Åbo Akademi University (ESD) and Aalto University (Campus greening) in Finland, financed by the Nordic Council of Ministers. Co-funding of non-Nordic BUP participants was financed through support from the Finnish Ministry for Education and Culture.

December 19 2013

Paula Lindroos  
Director, the Baltic University Programme

## DIPLOMA

Following students have successfully accomplished the Winter Limnology Course (16-20 March, 2015; 3 credits) at the Lammi Biological Station, University of Helsinki.

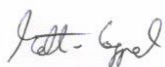

*ECTS*

### List of students:

Olga Dmitrieva  
Artem Iukhino  
Elena Makarova  
Anastasiya Sidorova  
Zakhar Slukvoskii  
Martyna Statuleviciute  
Margarita Sulga

LAMMI BIOLOGICAL STATION  
University of Helsinki  
Pääjärventie 320  
16900 Lammi  
Finland
